

OMRI Listed®

The following product is OMRI Listed. It may be used in certified organic production or food processing and handling according to the USDA National Organic Program Rule.

Product

Induclor Calcium Hypochlorite Granules for Industrial Applications and Swimming Pool Use

Company

Axiall LLC
Richard Ferguson
11 Stanwix St., Suite 1900
Pittsburgh PA 15222 United States

Status

Allowed with Restrictions

Category

NOP: Chlorine Materials

Issue date

30-Oct-2014

Product number

ppg-5284

Class

Crop Management Tools and Production Aids

Expiration date

01-Jun-2019

Restrictions

Residual chlorine levels in the water in direct crop contact (when used pre-harvest) or as water from cleaning irrigation systems applied to the soil should not exceed the maximum residual disinfectant level under the Safe Drinking Water Act (4 mg/L [4ppm] expressed as chlorine, or 0.8 mg/L [0.8 ppm] expressed as chlorine dioxide), except that chlorine products may be used in edible sprout production according to EPA label directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in contact with organic crops.

Executive Director

Product review is conducted according to the policies in the current *OMRI Policy Manual*® and based on the standards in the current *OMRI Standards Manual*®. To verify the current status of this or any OMRI Listed product, view the most current version of the *OMRI Products List*® at OMRI.org. OMRI listing is not equivalent to organic certification and is not a product endorsement. It cannot be construed as such. Final decisions on the acceptability of a product for use in a certified organic system are the responsibility of a USDA accredited certification agent. It is the operator's responsibility to properly use the product, including following any restrictions.
